

A SIMPLE WAY TO KEEP EVERYONE CHARGED

WHAT WE DO

At UX Power, we provide an easy and reliable solution to keep your devices charged anytime, anywhere. Our power bank rental machines make it simple for users to stay powered up—just scan, grab, and go. Whether you're at a bar, restaurant, gym, or out on the water, UX Power ensures you'll never be caught with a dead phone.

Each machine is sleek, compact, and designed for convenience, consuming minimal energy while offering on-the-spot charging. With our easy-to-use app, users can rent and return power banks in seconds, keeping things hassle-free for both customers and venues. Plus, venues benefit from the added advertising space on each machine's screen, providing a great opportunity to promote your brand or upcoming events.

WHY PARTNER WITH UX POWER?

By partnering with UX Power, you provide your customers with a valuable service while generating extra income for your business. Our machines come in various sizes, holding anywhere from 4 to 32 power banks, depending on your space and traffic needs. Each power bank can bring in an average of \$50 per month, and we share 30% of the profits with you in exchange for providing space.

The best part? We handle everything—from installation to maintenance—at no cost to you. All we need is a spot in high-traffic areas like entrances, restrooms, or seating zones.

You won't have to worry about theft or damage either. If a power bank is stolen or a machine gets damaged, UX Power takes full responsibility. We'll replace power banks and fix or swap out machines at no cost to you, ensuring smooth operations with zero stress on your end.

MORE THAN JUST POWER

Each machine also features a 9-inch screen, perfect for running promotional ads for your venue. Whether you want to advertise upcoming events, special offers, or simply highlight your brand, our screens offer an additional platform for engaging with your customers.

HOW IT WORKS

1. **Simple setup** - We provide and install the machines in high-traffic areas at no cost to you.
2. **Easy to use** - Customers simply scan the QR code on the machine, rent a power bank, and return it when finished.
3. **Profit sharing** - We share 30% of the monthly profits with your business, creating a steady revenue stream.

TIMELINE

Contract signing - Once the contract is signed, you can expect to receive your UX Power machine within approximately two weeks.

Power bank replacement - It typically takes about three working days as they are posted to you. For urgent cases, faster replacements may be available upon request.

EXTRAS

The machines use very little electricity, costing just cents per day to run, so you won't have to worry about any significant impact on your energy bill. With minimal effort, you'll provide a valuable service to your customers while tapping into an easy revenue stream. Whether it's a 4-bank station for a small venue or a 32-bank setup for a busy area, we've got you covered.

Partner with UX Power today, and let's keep everyone powered up!
